

# Virtual Art4healing

CERTIFICATE PROGRAM

**Art & Creativity is proud to offer the Virtual Art4Healing® program, a six week intensive certificate program offering live online classes in the Art4Healing® method.**

The program is designed for counselors, teachers, therapists, medical professionals, artists, and others interested in learning the Art4Healing® method and using the exercises in their own work with children and adults suffering from abuse, illness, grief or stress. Participants learn how to use the language of color as a way to facilitate creative and emotional expression through abstract painting on canvas and other visual mediums, such as collage.

Throughout the certification process, students will be asked to participate and practice facilitating segments of a workshop. This certificate allows for the individual to use the Art4Healing® methods within their area of expertise as a supplement to existing therapeutic, educational, or artistic programs.

Art & Creativity for Healing, Inc. is a nonprofit agency dedicated to providing workshops that help children, teens, and adults suffering from pain, grief, fear, or stress process their feelings using the venue of abstract painting on canvas.

The Art4Healing® workshops have already helped tens of thousands of individuals, including at-risk and underprivileged youth recovering from child abuse and gang-related trauma. This method also helps families with chronic and life-threatening illnesses cope with the emotional, spiritual, and physical impact upon their lives. By expressing themselves creatively, participants can document their experience in a profound way, thus creating a healing environment for themselves.
